

BCTC Return to Learning Plan

August 2020

In an effort to best meet the current educational delivery needs of our sixteen (16) sending schools and to be responsive to providing a safe learning environment, BCTC will be operating on the following revised learning model for the start of the 2020-2021 school year. The plan described below is designed to: provide CTE instruction based on changing sending district delivery models and reduce the overall number of students in the CTC programs to be proactive with addressing the health and safety of our students and staff during these trying times of COVID-19. This delivery model will allow for flexibility among the sending schools, will allow for a normalized schedule, preserve at least two days per week of in-person instruction and address current student supervision and transportation concerns. This plan would also be reflective of the BCTC JOC approved Health and Safety and Continuity of Education plans.

Students would attend BCTC based on the “Return to Learning Plan” that is aligned with the sending school district delivery models and would be modified as districts and BCTC “pivot” between models throughout the school year.

BCTC will continue to provide transportation to/from the sending school on all days where students are expected to be in attendance for **in-person** learning at BCTC.

****Please see below for individual school district information****

Antietam School District
